The substitute specification filed January 21, 2005 has been entered.

Claim 50 is objected to because of the following informalities:

In claim 50 lines 2 - 3 "having communicating said passage channels" is grammatically awkward.

Appropriate correction is required.

Claims 51/52, 52 - 56, and 63 - 75 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 52 - 56 and 69 - 73 the recitations of the substrate comprising self-aligning means in the form of lock elements renders the scope of the claims indefinite since the preamble of the claims is drawn only to the stamp device *for* printing on the substrate. Since only the stamp device is being positively claimed, it is improper to limit the claims by references to structure of the substrate which forms no part of the invention. Any recitation of the structure of the substrate must be inferentially recited.

For example, the last three lines of claim 52 could be amended to recite: --and the surface of said patterned layer comprises self-aligning means providing for an accurate positioning relative to the substrate during printing of said pattern.--.

Additionally, claim 53 could be amended to recite: --wherein said self-aligning means comprises key elements *for* engaging lock elements of a constant shape--.

Claims 54 - 56 must also be amended to delete the positive recitations of the lock elements on the surface of the substrate. Furthermore, claims 69 - 73 would appear to be

substantial duplicates of claims 53 - 56. It is not apparent how claims 69 - 73 could be amended to overcome this rejection.

Claim 74 is a double recitation of claim 52 lines 4 - 6. Claim 74 should simply be cancelled. However, note the dependency of claim 75.

Claims 31 - 38, 48, 49, and 59 - 62 are allowed.

Claim 50 would be allowable if rewritten or amended to overcome the objection(s) set forth in this Office action.

Claim 51 would be allowable if dependent upon only allowed parent claim 48.

Claims 51/52, 52 - 56 and 63 - 75 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Applicant has presented no specific arguments in the response filed January 21, 2005.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
